### **Health and Safety**

- Travel in groups of two or more, if you venture out from the hotel - even a few blocks, such as, to Larco Mar mall.
- Be sure to wear closed-toed shoes in Collique to avoid parasites.
- Wash your hands frequently, use hand sanitizer and use a fingernail brush each evening.
- Dr. Ray Verm will have medicine to treat diarrhea and stomach problems. You should let him know at the onset of symptoms.
- Eat foods that have been cooked or peeled. Do not eat lettuce, tomatoes, strawberries, or mayonnaise based sauces.

- Drink plenty of bottled water during the day to avoid dehydration.
- Order bottled soda or bottled water that you uncapped yourself or was uncapped in your presence. Water is available as either “agua con gas” (water with carbonation) or “agua sin gas” (water without carbonation.) Do not drink water or soda that has been provided in a glass without being poured from a bottle. Do not leave partially used bottles of water as “trash” in Collique. This leaves a bad impression to the residents who see water as a precious commodity.
- Do not use ice in drinks.
- Do not use tap water to brush your teeth. Use bottled water to brush and rinse your toothbrush.
